

Telehealth Consultations at Capital Eye

With most of the services closed amid the COVID-19 crisis, we have expanded our optometry services in Canberra to include telehealth consultations.

This allows you to continue to maintain your eye health, ask any questions and connect to our optometrist seek urgent advice and attention.

During these uncertain times, we have decided to reduce our face-to-face consultations to a minimum to protect our staff and our patients. We are a strictly by-appointment practice now include collections of glasses, contact lenses, adjustments and repairs.

Our 30-min telehealth service allows you to discuss your concerns regarding your eye health and vision. During the consultation, if it is deemed a face-to-face consultation is necessary, we will have the practice prepared for your arrival within the hour according to our COVID-19 sanitation and operation guidelines.

You can make a telehealth optometry appointment online by selecting the appropriate consultation type. Any costs associated with the telehealth consultation will be discussed before your appointment. No referral is necessary to utilise this service.

For more information, call us on our temporary mobile line 0401 057 634, or email us info@capitaleye.com.au
