

COVID-19 Update: 22/01/2021

At Capital Eye, we understand that your eye health is essential to you, and more importantly, your overall health. We are continually updating how we go about our business to ensure our patients, staff and the community are protected throughout the pandemic.

We are open by appointment and more than happy to continue seeing our patients. However, there are a few things that we ask you to consider before you make an appointment:

- If you are feeling at all unwell, please do not visit our practice.
- If you have been in contact with a suspected or a confirmed case of COVID-19, please do not visit our practice. Please contact the National COVID Hotline 1800 020 080 for advice.
- If you have been to or travelled through what the Authorities considered to be a hotspot, please notify staff and allow 14 days before visiting our practice. For more information, please visit <https://www.covid19.act.gov.au/>
- As a precautionary measure, we will be taking everyone's temperature upon entry. We will continue to practice social distancing and encourage all patients to hand sanitisers routinely.

If you require an appointment, there are a few ways to book:

- Online booking is available via our website
- Email info@capitaleye.com.au
- Call or text our temporary mobile phone 0401 057 634 You will then be contacted by our reception to confirm your appointment.

Thank you for your ongoing support and loyalty during these times. We have been very grateful for our Capital Eye community. As always, we encourage you to get in contact with us with any questions you may have. We are more than happy to do what we can to help and support you through this time.

Stay Safe,

Shelley, Erica, Becky, Tom and Jack
